**HAPGOOD ANNOYED
AT STATE'S DELAY**

Writes Letter to Attorney General Barber in Regard to Peru Turnpike Legal Proceedings.

Marshall J. Hapgood of Peru has written the following letter to Attorney General Herbert C. Barber of this town in regard to the delay in the proceedings to free the Peru turnpike:

I am informed that the Bennington court sits at Manchester again next week Tuesday, and as no action seems yet to have been taken in regard to the Peru turnpike, final, on account of your non-appearance at the close of the

June session, I take the liberty of calling the matter to your attention.

If regular action had been taken last June and no appeal had been made, it appears that we would have had a free road this summer and thus relieved the heavy traffic going over.

I cannot conceive how that the state can think of taking any appeal in these proceedings instituted and conducted largely under its own control, especially when such an appeal would probably cause another year of toll collecting, and I hardly believe that the other side intends to appeal, especially if the court decides that it is lawful to collect toll upon automobiles, which right seems to me unquestionable, although the rate may appear high.

Upon asking the governor a short time ago how it happens that this seemingly needless delay has occurred, he attempted to make no excuse whatever except that he had left the matter entirely with the attorney general, which seemed to me out of place with him since as chief executive, his prime duty I believe, that it should have taken his attention strongly.

I understand that you are a candidate for reelection and as deeply interested in public affairs I would respectfully ask you why this apparently needless delay has occurred.

None of the state officials have as yet attempted to give any excuse why they did not accept M. Flynn's offer quite three years ago to turn the control of the turnpike over to the state, and the state select any ex-governor of the state, one or more, to assess the damage or he would select an appraiser and the state select, and these two select a third if they could not agree.

This process would have given us a free road for the past three years. Do the state officials really desire it, is a question now being asked. The continuance of this toll gate seems to be universally classed as a disgrace to the state, and if not remedied forthwith I believe that a legislative investigation will be proper. The fact that we have thus been burdened so long is all the more reason why we should be relieved as soon as possible, in spite of the declaration of Gov. Gates that as "we

have stood it fifty years, we can stand it fifty more" and of the State Highway Commissioner Bates that "if we cannot stand it any longer we had better move out."
